Technical Seminars

Thank you for your interest in Cleveland Motion Controls (CMC) Technical Seminars. We are pleased to offer you the opportunity to train your technical staff in the operation and maintenance of the CMC equipment in your facility.

The standard seminar includes:

- A basic overview of AC or DC drives and motors.
- A detailed explanation of each of the AC or DC Drive circuit boards and how they are inter-connected.
- A detailed explanation of the software and parameter descriptions.
- Troubleshooting techniques and common problems and solutions.
- Instruction on changing individual circuit boards.
- How to use CeLite or DriveTop software with a laptop (with digital drives).
- A section dedicated to the customer's specific application.
- Basic operation of PLC's or Motion Controller (if included in the system).

We feel that a trained maintenance staff can reduce the need for costly service calls, and machine downtime. CMC offers seminars on all of our equipment and will instruct your personnel in a way that is geared to your specific needs. Our seminars are hands on, breaking down the drives to the individual components and their functionality. These seminars are conducted by one of CMC's Field Service Engineers, either at your location or at our corporate headquarters in Cleveland, Ohio.

CMC looks forward to being able to enhance the capabilities of your technical staff by having you take part in our training seminars. Please contact us to schedule a session today, 800-321-8072.

Sincerely,

John Powell – Field Service Supervisor
(216) 642-5145

Jennifer Kearney – Field Service Coordinator
(216) 642-2123

Technical Seminar Pricing*

Most technical seminars are 3 day seminars. The price includes the training sessions, all manuals and materials required, lunch each day, and a copy of DigiControl or DigiConfig communication software and cable (for digital drive seminars).

3-Day Seminar

Conducted at CMC - \$2950

Conducted at Customer site (includes expenses) - \$5000

This price is good for a group up to five people. CMC can also quote custom plans on an individual basis.

** These price effective September 2008 and are subject to change without notice*
